Target Outreach

Investor Marketing, Distribution & Monitoring

Platform Placement & Transaction Marketing
The approved offering will be placed on the US Capital Investment Platform and supported by a comprehensive transaction marketing strategy, including professionally prepared marketing materials, positioning of the investment opportunity, and coordinated outreach initiatives designed to present the transaction clearly, accurately, and compliantly to potential investors.

Investor Targeting & Outreach Execution
US Capital will identify and target active investor groups including investment firms, family offices, institutions, and qualified individuals. Targeted outreach will be conducted through structured investor communications, social media marketing, and physical networking events sponsored by both US Capital and the Client, ensuring appropriate, effective, and compliant engagement with prospective investors.

Investor Tracking, Follow-Up & Reporting
US Capital will track investor engagement, manage follow-ups with interested parties, and provide the Client with detailed reporting on investors contacted, levels of interest, feedback received, and overall progress of the capital-raising effort.

Global Capital Newsletter Feature & Results

Email Click-Through Rates by Industry Sector 2026

This chart compares email click rates (CTR) by industry with US Capital Global's newsletter performance.
It shows that US Capital Global's newsletter audience is highly engaged and far more responsive than typical industry benchmarks, proving the subscriber list is both relevant and genuinely interested in our content.

Key point

US Capital Global achieves a CTR of 6.1%, which is:
About 2.7× higher than the cross-industry average (2.27%)
More than 3.2× higher than the banking & financial services average (1.87%)

Direct Investor Reach

Our communications platform provides direct access to a highly engaged audience of 250,000+ newsletter recipients, with strong and consistent engagement:

• 250,000 email recipients — representing an audience of more than 250,000 contacts

• 25.50% total open rate, approximately 15% above the 10-week average

• 6.1% click rate, demonstrating meaningful engagement with content and investment opportunities

• Tile engagement was generally above the 10-week average, with certain tiles performing up to 18.26% higher

What this means

Our subscribers aren't just opening emails, they are actively clicking and engaging with the content.
The database is high-quality and genuinely interested, not made up of passive or low-intent contacts.
Our content, targeting, and relevance to our audience are outperforming industry norms.
From a marketing perspective, this indicates strong brand trust, effective messaging, and a well-qualified readership.

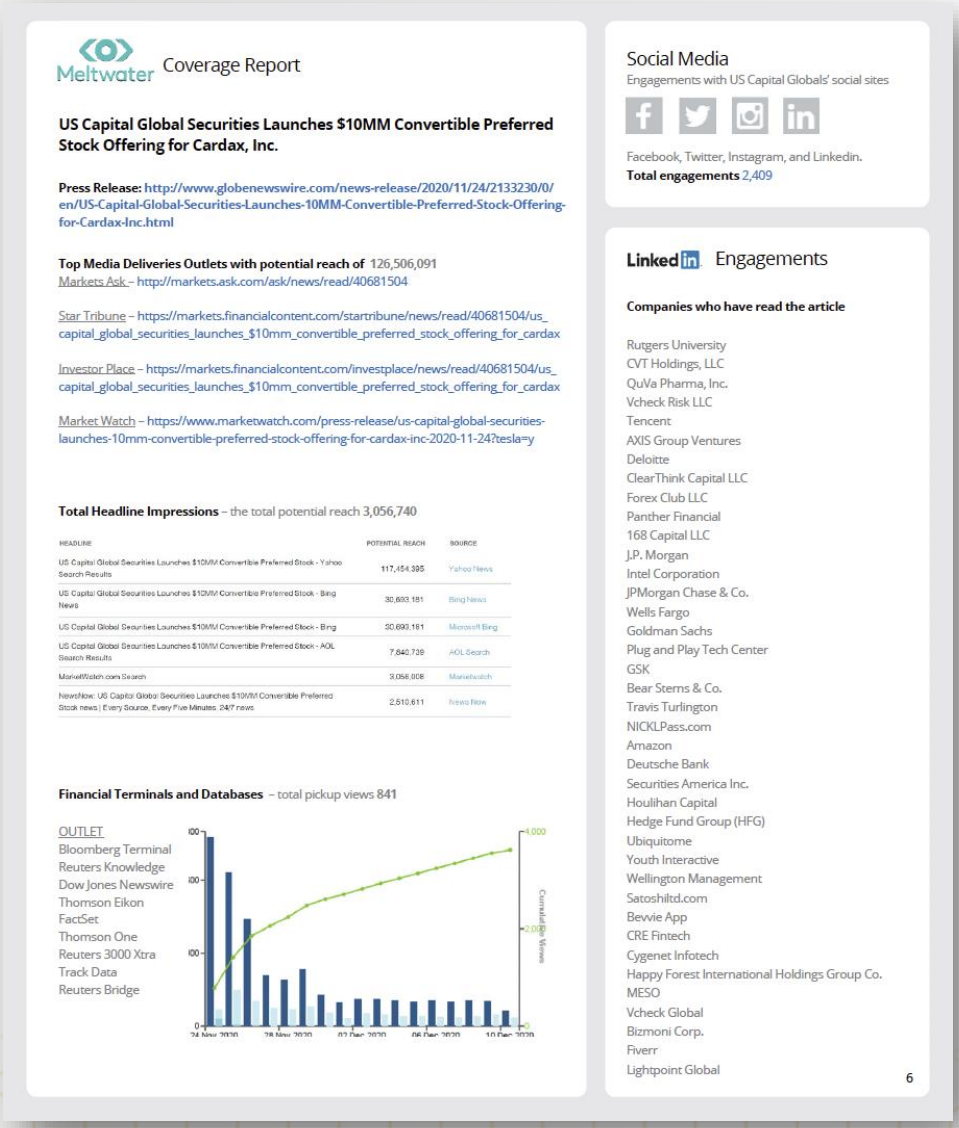

Marketing Campaign

Press Release Distribution

US Capital Global will draft compliance-approved press releases about Client and/or Client's securities offering

Meltwater Wire Distribution via GlobeNewswire

At Global Capital, we employ the services and capabilities of Meltwater (www.meltwater.com) for press release distribution. Meltwater's GlobeNewswire press release distribution service allows the Global Capital team to distribute press releases widely to websites and media outlets across North America (with international pickup), with a privileged focus on the financial sector, and in real-time or scheduled. Meltwater's press release distribution channels include PR Fire, PressReleasePoint, Bloomberg Terminal, Dow Jones Newswire, FactSet, Reuters 3000 Xtra, to name just a few. With numerous financial newswires to choose from, Meltwater's press release distribution service enables Global Capital to provide targeted, guaranteed PR coverage for clients.

Investor Events

US Capital Global will select the most likely venues where identified investors are likely to gather or meet and have interest in the Client's offering.

Investor Outreach Reports

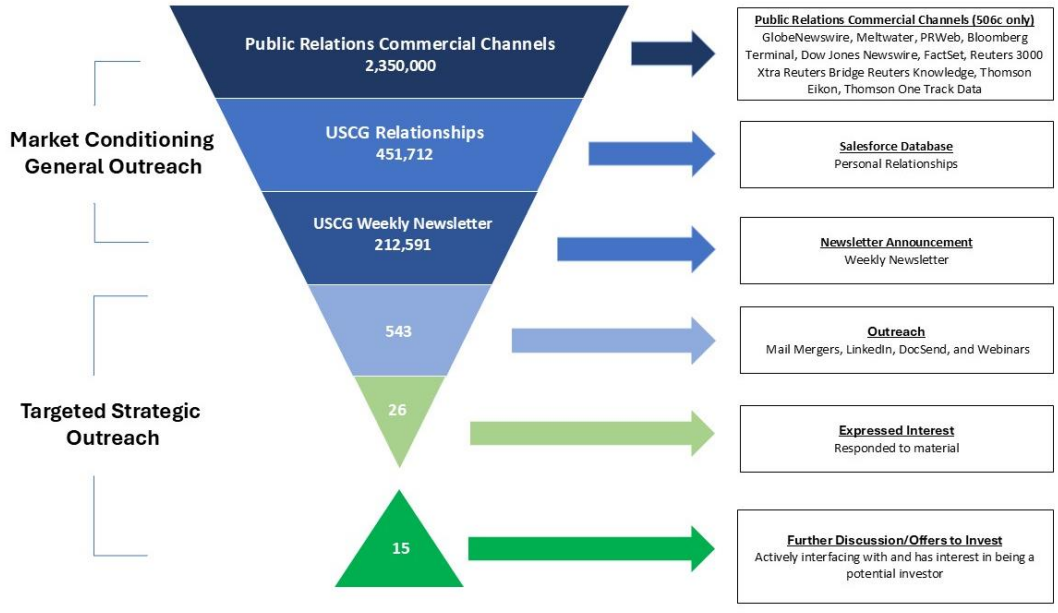

US Capital Global will produce regular reports on the number of potential investors contacted, method of contact, response to such contact, and GCPL's follow-up action as a result of that contact.

PROCESS OVERVIEW REPORT

US Capital Global has identified 543 **potential investors** for *Issuer, LTD* through Various Marketing Campaigns.

The results of the marketing activities are reported below:

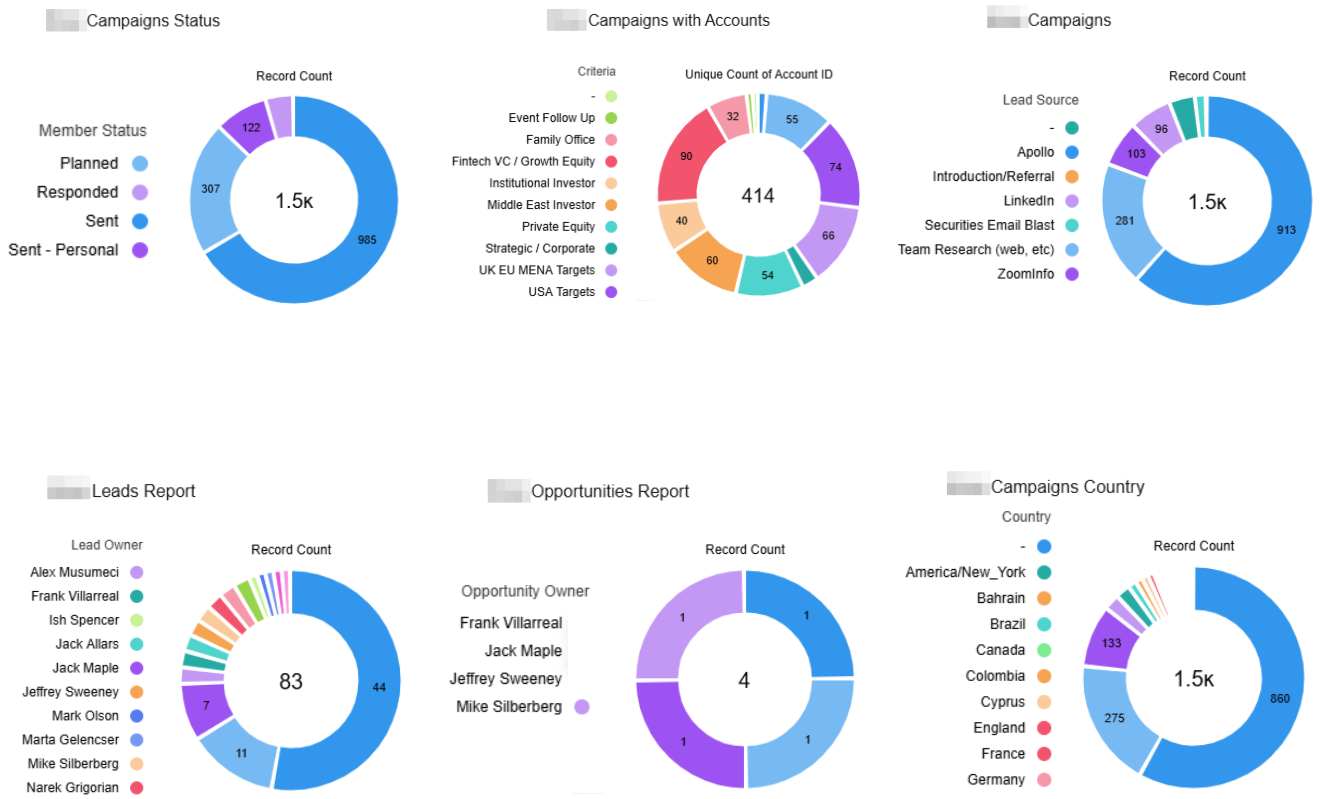

GENERAL OUTREACH

Distribution process

US Capital Global will conduct a thorough distribution with each mandate having a dedicated, data-driven outreach campaign run through the firm's CRM platform. Every prospective lender and investor is logged, segmented and tracked from first contact through to closing – giving both the deal team and the client full visibility of live distribution activity at every stage.

What the dashboard tracks

• **Campaign coverage** – every lender and investor contacted, segmented by criteria such as capital type, strategy and geography.

• **Pipeline conversion** – leads and opportunities monitored in real time, with named ownership across our desks globally.

• **Client reporting** – the same live data underpins the regular investor outreach reports provided to clients (see following page).

About US Capital Global

Example Closed Transactions

Renaissance Bonds | $600 Million, Bond Offering

Client

Renaissance Bonds is a fixed-income offering designed to provide institutional investors with access to private market debt opportunities. The security consists of 7.95% Notes due December 31, 2030, and is traded primarily on European exchanges. Structured for sophisticated investors seeking yield and diversification, the offering forms part of a broader private market fixed-income ecosystem serving institutional capital worldwide.

Scenario

As demand for differentiated private market fixed-income investments continued to grow, a large institutional investor sought to acquire a substantial position in Renaissance Bonds through a single block transaction. The transaction required specialized expertise in institutional distribution, liquidity management, custody coordination, and execution across multiple jurisdictions. US Capital Global was engaged to facilitate the transaction and leverage its institutional distribution platform to support the efficient transfer of a large-scale bond position.

Solution

US Capital Global Lending, LLC successfully executed the sale of a $600 million position in Renaissance Bonds to a major institutional investor. The transaction involved the transfer of a large bond position that had been held on the firm's balance sheet and was completed through a single institutional block trade in collaboration with financial partners across Latin America, Switzerland, and the United Kingdom. Through its institutional distribution platform, US Capital Global facilitated liquidity, coordinated execution and custody arrangements, and demonstrated its ability to originate, hold, distribute, and provide liquidity for large-scale private market fixed-income securities.

Hydrokinetic Energy Company | Multi-Million Dollar Financing

Client

The client, a North American hydrokinetic energy company, specializes in affordable renewable electricity derived from slow-moving water and ocean currents. Their patented technology efficiently converts various water sources into continuous on- and off-grid power. This breakthrough innovation disrupts traditional energy models, offering globally accessible renewable energy solutions.

Scenario

The client's environmentally friendly commercial units are cost-effective, dependable, and sustainable, delivering optimal energy extraction from water, even in icy conditions. Uniquely, it operates in water flows below 4 mph, abundant worldwide. With a substantial global intellectual property portfolio and units validated in ongoing commercial pilots, the company sought further financing to scale operations across North America and globally.

Solution

US Capital Global provided customized financial guidance to the client, facilitating a multi-million dollar common stock offering through its SEC-registered broker-dealer arm, US Capital Global Securities LLC. This included due diligence, structuring the offering, regulatory compliance, and global promotion. US Capital Global Securities enabled accredited investors' access to the disruptive CleanTech company's hydrokinetic renewable energy system, fostering international market exposure and supporting grant funding collaboration with the United Nations for clean hydro-power in Latin America. The client received six offers, leading to funding for its pilot program.

International Airport Development Company | $220 Million, Advisory

Client

The client, a family-owned enterprise, boasts a rich legacy of spearheading projects fostering economic, social, and community growth in the South Central region of the United States. Their portfolio spans construction, real estate brokerage, investment syndication, asset management, and infrastructure development. With a long and diverse business background, the client is well-equipped to make informed decisions regarding acquisitions, investments, and developments, underpinned by their extensive experience and commitment to progress.

Scenario

This commercial real estate development firm was spearheading a significant project: an international airport and technology and data center on 5,000 acres in the South Central region of the United States. They sought substantial funding for this venture, aiming to establish global connectivity in the region. US Capital Global was enlisted for strategic and financial advisory support, recognizing the project's importance in enhancing regional infrastructure and technological capabilities.

Solution

US Capital Global delivered customized advisory services for a $220 million debt and equity capital formation for this international airport development project. Providing strategic guidance, US Capital Global advised on funding alternatives and conducted thorough analysis to guide the client's optimal financing decisions. With expertise in capital structure, accounting, reporting, and project timelines, US Capital Global played a pivotal role in aligning funding options with the company's development objectives, with the aim of ensuring successful implementation of the project.
