The opportunity to invest in a world-leading Danish secure smart card solutions company is open to eligible investors, as the award-winning business reaches new milestones in Q1 2022.

SAN FRANCISCO, APRIL 2022 – Danish high-security smart card provider **CardLab ApS** (“CardLab”) has been designated the “Most Secure and Innovative Cyber Security Protection Solution” by Business World Magazine, alongside four other nominations by World Business Outlook, including “Best Card Security Solutions Provider Denmark 2022.” CardLab has also received invitations from MasterCard and Visa to showcase its products to MasterCard collaboration partners at the Stockholm FinTech Week in late April, and to compete at the Visa Everywhere Initiative Global 2022 Program, for which CardLab is considered a perfect fit.

CardLab offers best-in-class technical design and manufacturing support for biometric card solutions, including scalable security platforms and seamless integration into existing cybersecurity infrastructure. The company, which focuses on biometric smart cards, has its headquarters in Denmark, manufacturing partners in Asia and the United States, and a card lamination factory in Thailand. **US Capital Global**

Securities LLC, an affiliate of US Capital, is offering eligible investors participation in a \$10 million investment opportunity in CardLab.

With offices in San Francisco, Las Vegas, Miami, London, and Milan, US Capital is a full-service private financial group with an established track record in investment banking, asset management, and capital formation services. All securities are offered by the group through its **FINRA**-member, SEC-registered broker-dealer affiliate, US Capital Global Securities LLC.

"Within the first quarter of 2022, CardLab has already reached several new milestones," said Frank Sandeløv, CEO at CardLab. "We have consistently been receiving new requests from all over the world for our innovative solutions, especially our biometric access cards, HardWallets, and our 'All in One' card solutions. Our technology is adaptable to a vast range of industries, and we have recently signed card production contracts with a wide range of new clients, including a world-leading hearing aid company, a European cybersecurity company, a pre-laminate manufacturer, and several data security and FinTech firms. Our Agnosco biometric cards are now almost complete and our eSignus HashWallet cards are ready for volume production. It has been an exciting start to the year."

"It is no surprise to us at all that CardLab ApS keeps winning awards and expanding its reach, as global interest in its sophisticated, extensively researched products continues to rise," said **Charles Towle**, CEO at US Capital Global Securities. "Nominated by the European Commission as one of Europe's most innovative high-tech firms, CardLab has grown into a world leader in the biometric smart card industry with customers across Europe, Asia, and North America. We are very pleased to be supporting CardLab with a \$10 million equity offering, which the company will use to fulfill current pending orders in its international pipeline. If you are interested in CardLab, the opportunity to participate in this equity offering is still **open to eligible investors.**"

Leading industry analytics companies like Mind Commerce forecast that the global market for digital identity infrastructure and services will **grow at a 24.9% CAGR to \$50.76 billion by 2026.**

About CardLab ApS
